Education

GL Bajaj Institute Of Technology & Management, Greater Noida <i>Bachelors Of Technology in Computer Science & Data Science</i>	Expected July 2026 <i>CGPA: 7.94</i>
St. Xavier's Public School, Gorakhpur, Uttar Pradesh <i>All India Senior School Certificate Examination</i>	Apr. 2020 – May 2021 <i>Percentage: 94.6%</i>

Technical Skills

Languages: Java, C/C++, Python, JavaScript.
Frameworks: React, Node.js, Express.js, WebSockets, Tailwind CSS, JWT.
Other Skills and Technologies: Git, REST APIs, Hoppscotch, Postman, Docker, Vercel/Render/AWS.
Database: MongoDB, MySQL, PostgreSQL.
Core concepts: Data Structure & Algorithm, Operating System, DBMS, OOPs.

Projects

ChatGuard AI <i>WebRTC, Socket.io, Bcrypt, Perspective API, AWS</i>	July 2025 – Sept 2025
- Engineered a real-time video conferencing platform using WebRTC and Socket.io, achieving sub-200ms latency for seamless communication among 5+ concurrent users. - Integrated client-side AI moderation using Perspective API, automatically detecting and blurring toxic messages with 90%+ accuracy to ensure a safe user environment. - Designed a responsive interface with React.js and Tailwind CSS, implementing 3+ essential collaboration features including screen sharing, live chat and audio toggles. - Deployed the application on AWS EC2 for scalable access and secured user credentials using Bcrypt hashing, ensuring 100% data privacy compliance.	
LiveDemo	
WanderLust <i>MVC Framework, JWT, Cloudinary, Mongo Atlas</i>	Feb 2025 – March 2025
- Architected a robust MVC-based travel marketplace using Node.js and Express.js, managing 10+ RESTful API endpoints to handle seamless data flow and dynamic routing. - Designed complex MongoDB schemas with proper indexing to store 100+ distinct property listings, optimizing database query retrieval speeds by 30%. - Implemented a secure authentication system using Passport.js and JWT, establishing a 2-layer security protocol (hashing & session management) to protect user data. - Integrated Cloudinary for optimized cloud storage, handling 50+ high-resolution image uploads while maintaining a fast <2 second page load time via efficient EJS rendering.	
Live Demo	
Contest Platform for MBA Students <i>React, Vite, Redux Toolkit, Tailwind CSS</i>	July 2025 – Present
- Engineered a high-performance user interface using React.js and Vite, achieving 3x faster build times and ensuring 100% responsiveness across mobile and desktop devices via Tailwind CSS. - Centralized complex global state management using Redux Toolkit, streamlining data flow across 10+ reusable components and effectively eliminating prop-drilling issues. - Implemented secure client-side routing with React Router, enforcing access control on 5+ private routes and designing a modern glassmorphism login modal that improved visual engagement by 20%.	
Live Demo	

Hackathon Experience & Certification

- Cleared Round 2 of **Adobe India Hackathon** organized by Adobe.
- Qualified the **SIH 2025** Prequalifier, ranking in the **top 5 teams** among **50+ participants** at the institute level.
- Developed **2+ full-stack MERN** (MongoDB, Express.js, React, Node.js) applications, implementing REST APIs and user authentication. (**Apna College**, Apr 2025)
- Mastered core Java, OOP, and Data Structures by building **2+ hands-on projects** and solving **400+ algorithmic problems**. (**Apna College**, Apr 2024)
